Green Line Extension Project Land Use Workshop

Wednesday, May 26, 6:30 to 8:30 PM
Kennedy Longfellow School Cafeteria
158 Spring Street, Cambridge, MA

The Massachusetts Department of Transportation is hosting a Green Line Extension Land Use Workshop in your community. We want to hear your ideas for the area around the future relocated Lechmere station.

This workshop will focus on the areas near and around the planned Green Line stations. Future workshops will focus on the design of the stations themselves.

Please contact Regan Checchio (617-357-5772 x 14) with any access or language accommodation requests by May 12. For more project information, please visit www.greenlineextension.org.
